najistaknutija je hrvatska dječja književnica. Pisala je pjesme, pripovijetke i crtice za djecu, no najveći književni uspjeh postigla je svojim, inače prvim hrvatskim dječjim romanom Čudnovate zgrade šegrta Hlapci i knjigom bajki Priče iz davnine. Ivanu Brlić-Mažuranić nazivamo još i hrvatskim Andersenom što mnogo govori o njezinu značaju.

148. rođendan Ivane Brlić-Mažuranić (Opatovo, 18. travnja 1874.)

"Kakav li je ovo bijedni život?" - govorio Palunko sam sebi, - "što danas uhvatiš, to večeras pojedeš - i nikakove radosti nema za mene na ovome svijetu."

"What kind of miserable life is this?" - Palunko said to himself, - "what you catch today, you eat tonight - and there is no joy for me in this world."
